

1 Click on **Start**

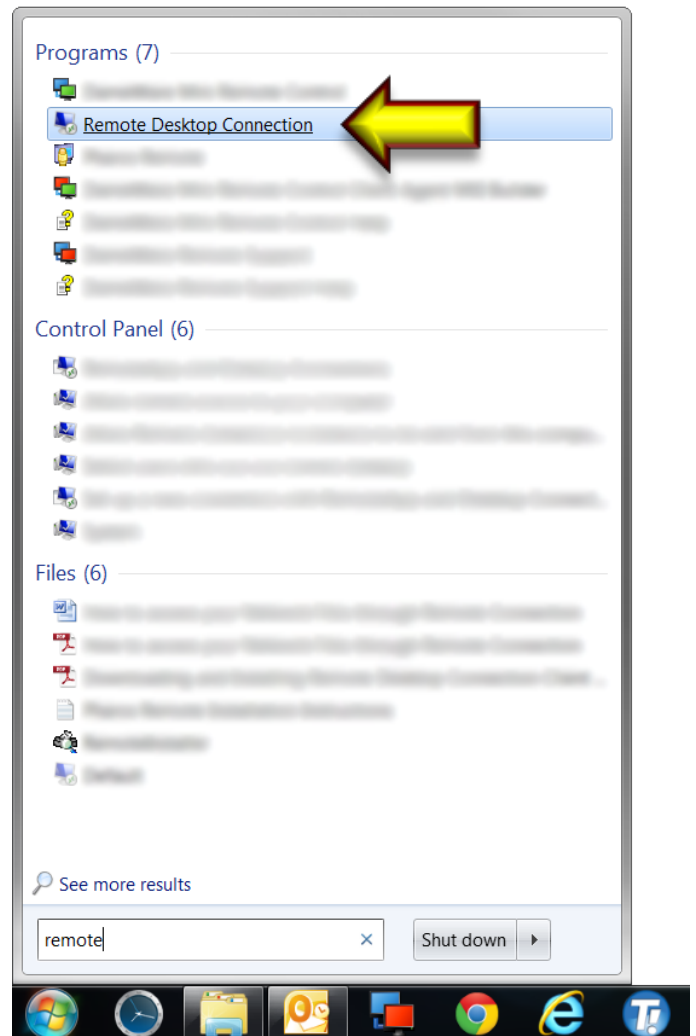

2 Type **remote** in *Search programs and files*

Remote Desktop Connection

3 Look for Remote Desktop Connection under Programs

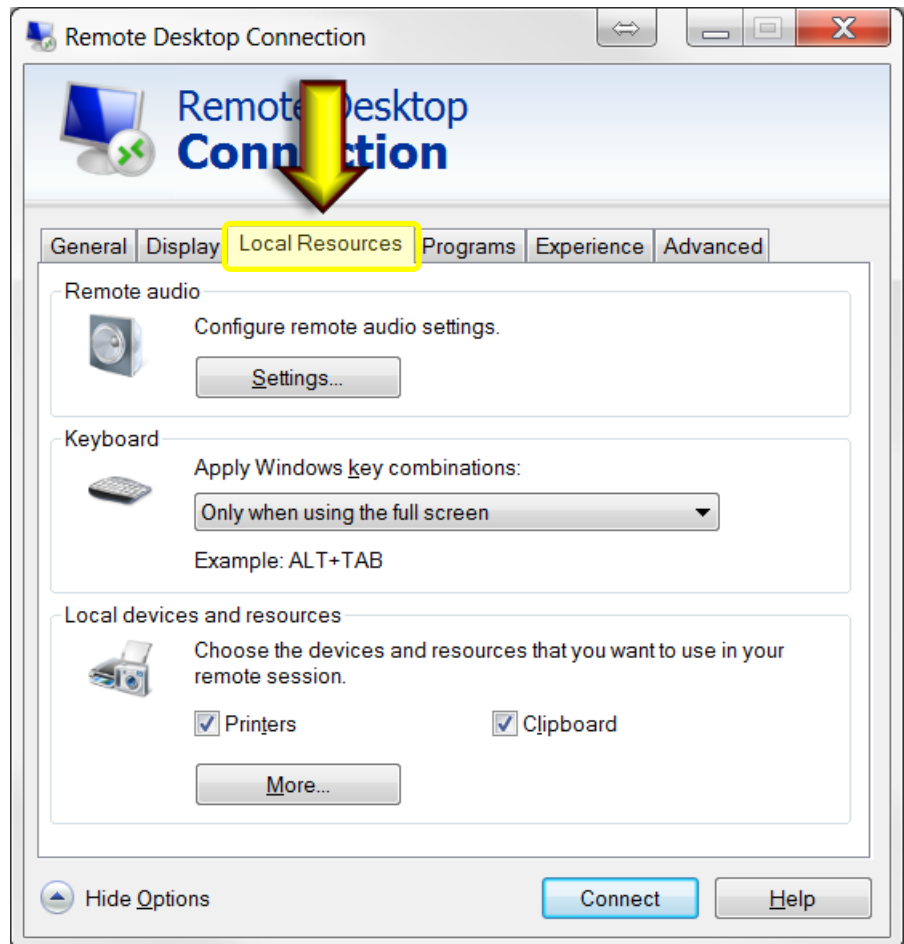

Open RDC

Type remote.law.miami.edu

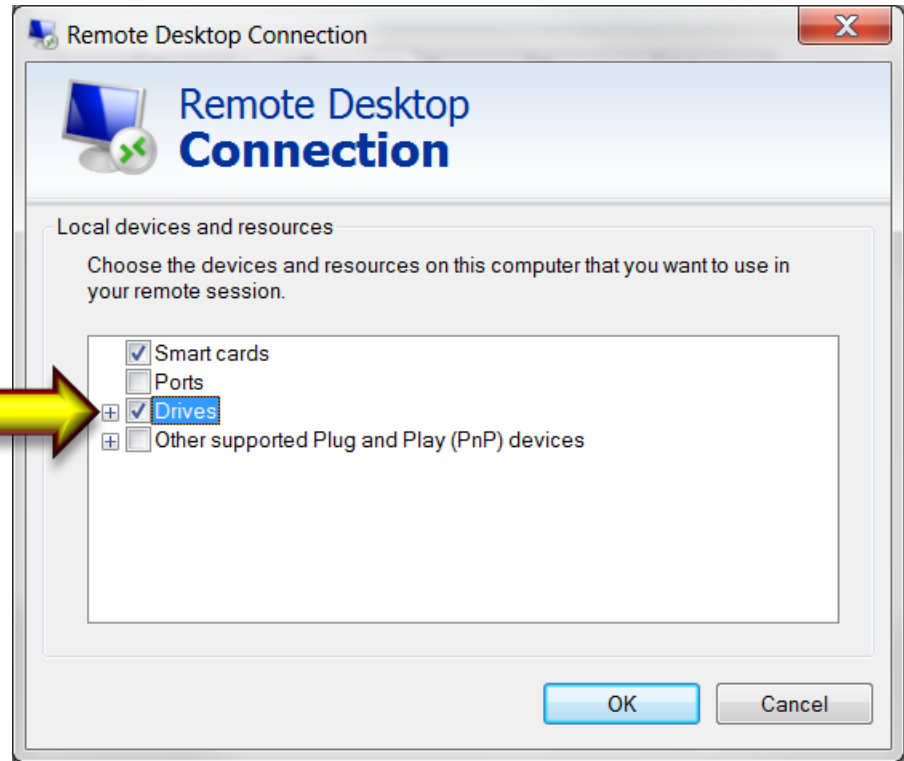

Click on **Show Options**, then click on the **Local Resources** tab shown on the right.

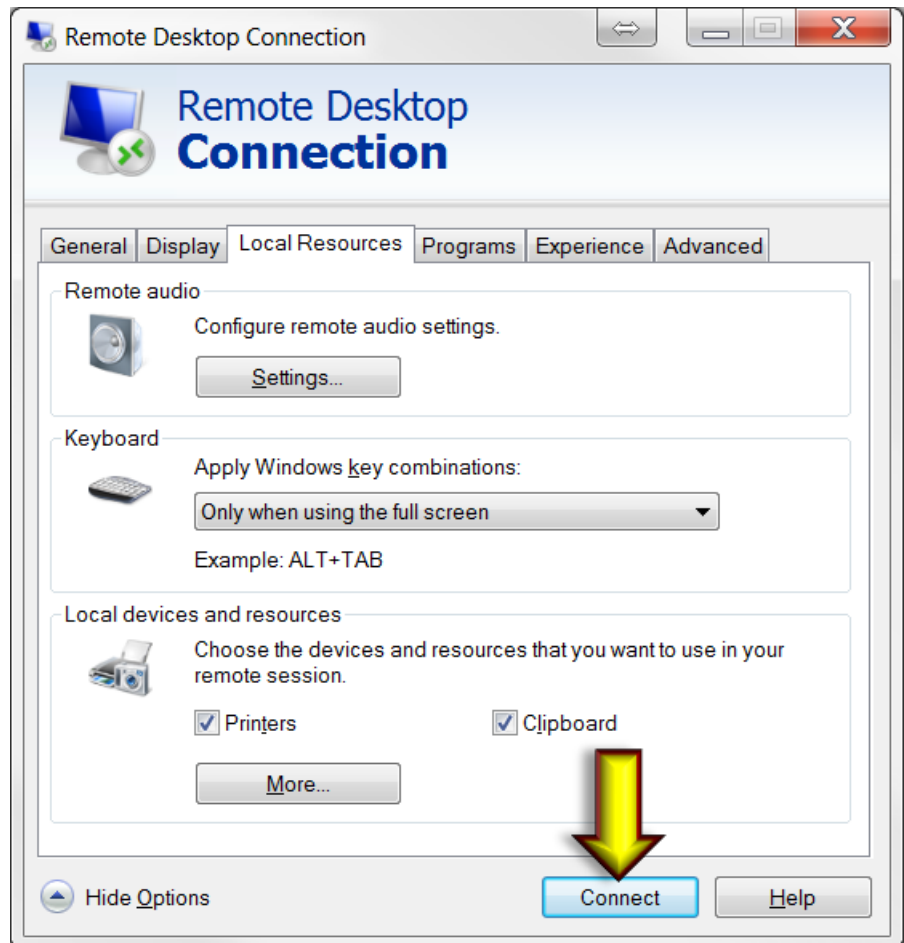

Make sure that the **Drives** box is checked.

This option will allow files to be copied between the remote session and the local system (the computer currently using RDC)

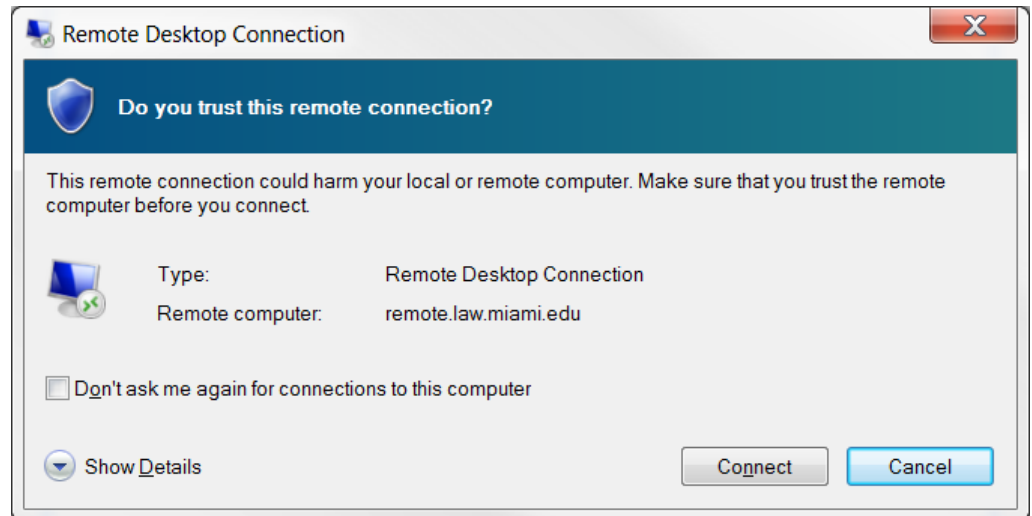

Then click on **Connect**

If you checked off the local resources box you may see the trust window on the right.

Click on **Connect**

You may then see the identity verification window

Click **Yes** to continue

Proceed to login using your UM Law email credentials
Make sure the *Log on to:* option shows **UMLAWSCHOOL_AD**

Please click on **Start**, then **Log Off** to properly close out the remote session, this will also avoid future connection issues
