Dean's Cup Additional Bylaws:

Purpose and Intent:

The purpose of the Dean's Cup Committee is to facilitate the annual sporting competition between UM's law and medical schools that takes place during the spring semester. In order to facilitate this competition, the Committee is responsible for coordinating with the medical school's Dean's Cup liaisons. Both schools work together, and with the Wellness Center, to plan what sports or events will take place, when they will take place, and

where they will take place. It should be the position of the Dean's Cup Committee to win every event and involve as much of the student body as possible.
